ALFA ROMEO
range of cars

Alfa Romeo 

There are fourteen different and highly distinctive models in the Alfa Romeo range. Starting with the practical sportiness of the Alfasud, they include the highly manoeuvrable Ti and Sprint Veloce, the family sized sportiness of Giulietta and the prestigious Alfetta. There's the GTV range – surely the epitome of Alfa Romeo and, in a class alone, the exclusive luxury of the Alfa 6.

Each incorporates engineering features that set them above the competition. Each offers five speed economy and performance, and the extra stopping power from all round disc brakes – even on the lowest priced Alfasud. Plus the protection of a 5 year Anti Corrosion Guarantee.

The choice of engine power is impressive too. From the nippy 1.3 and 1.5 units on Alfasud through to the incredibly powerful 2.5 GTV6 which reaches 60 mph in just 8.3 seconds. All set the performance target that others seek to match.

Of course, on each Alfa Romeo model, interior features match up to this high standard. On all models a high quality radio/cassette player is a standard feature. There's also an adjustable steering column, fully comprehensive instrumentation plus a long list of other convenience, comfort and safety items.

The most surprising fact about the Alfa Romeo range is its price – highly competitive! Check it out for yourself and discover a real alternative to 'ordinary' motoring.

GTV
